

## Call Communicator - Options and Preferences Window Language

This window is used to specify the language the system will use for Call Communicator panels, Voice Mail prompts, and IP Phone instructions.

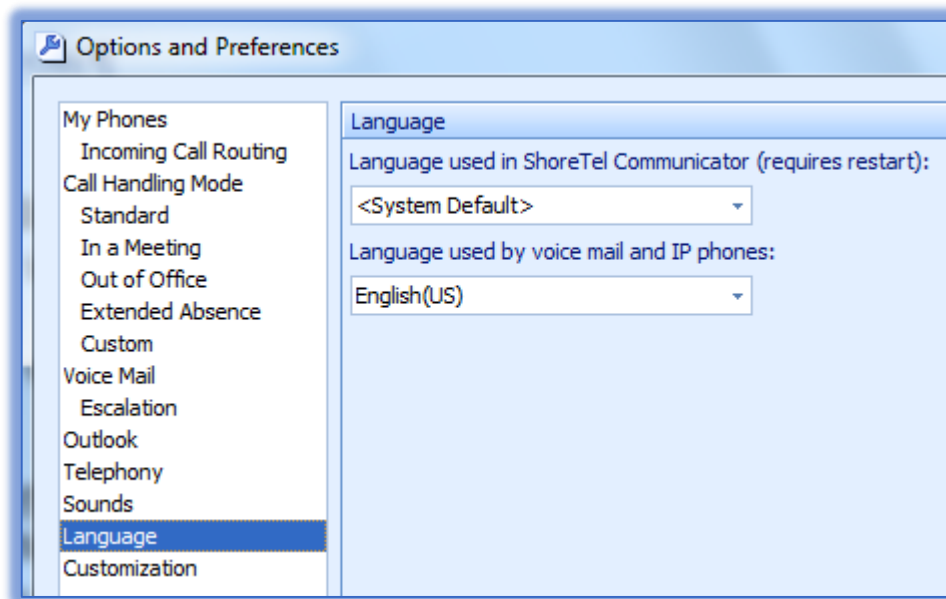

### DISPLAY OPTIONS AND PREFERENCES WINDOW

- ☎ Do one of the following:
  - ★ Click **Tools** on the **Main Menu**.
  - ★ Click the **Application Button** (see illustration).
  - ★ Right-click the **Call Communicator** icon in the **System Tray**.
- ☎ Click **Options**.
- ☎ The **Options and Preferences** window will display.

### LANGUAGE

- ☎ Click the **Language** link on the left side of the window.
- ☎ The **Language** window will display (see illustration).

- ☎ Make changes to the available parameters. These parameters are described below.
  - ★ **Language Used in ShoreTel Communicator** – Use this option to specify the language through which Call Communicator will display information.
  - ★ **System Default** – This option refers to the language designated by the administrator as the default language. Call Communicator must be closed and reopened in order for any changes to take effect.
  - ★ **Language Used by Voice Mail Prompts and IP Phones** – This option is used to specify the language the system will use for the IP Phone display messages and voice mail and audio prompts.
