

## CHANGE THE SLIDE COLOR SCHEME

- ✦ Click the **Design Tab**.
- ✦ In the **Variants Group**, click the **More** button. This is the button in the bottom right corner of the **Variants Gallery**.
- ✦ Select **Colors** from the list that appears (see illustration below).

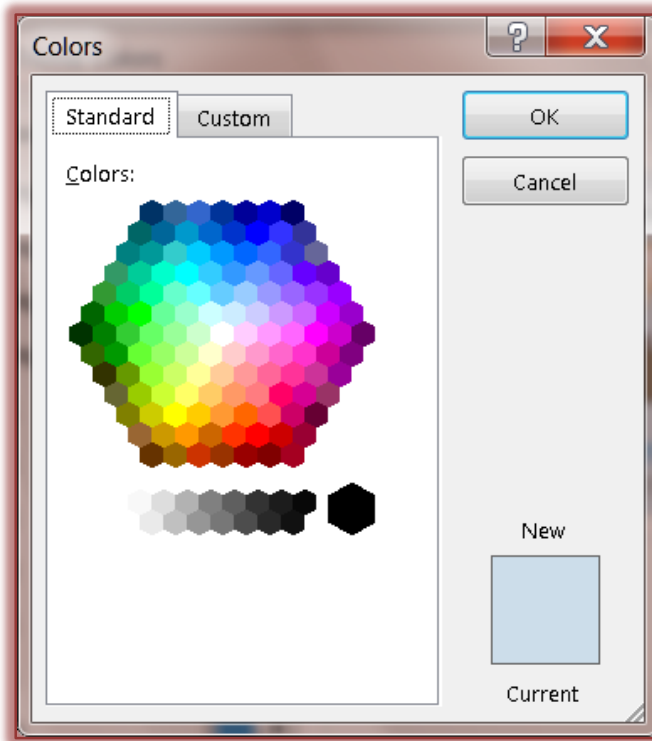

- ✦ A gallery of different **Theme Colors** will display (see illustration at right).
- ✦ Move the mouse pointer over each of the **Color Schemes** to see the different colors that can be applied to the theme.
- ✦ To create a new theme, click the **Customize Colors** link.
- ✦ The **Create New Theme Colors** dialog box will display (see illustration below).

- ✦ Under the **Themes** list, click each of the arrows to choose new colors for the theme.
- ✦ A gallery of **Theme Colors** will display (see illustration below).
- ✦ To apply a theme color to the object, click any of the colors in the **Theme Colors** gallery.
- ✦ To select a standard color, click a color in the **Standard Colors** row.

- ✦ To select additional colors, click the **More Colors** button.
- ✦ The **Colors** gallery will display (see illustration below).
  - ✦ Click any of the colors on the **Standard** tab to select it.
  - ✦ To make changes to the color, click the **Custom** tab.

- ✦ After making all the changes, click the **Save** button.
