ACCESS CLASSLIVE-STUDENT

- Click the **Live** tab on the **Tools Menu**.

- Select the **ClassLive** tab when the **Live** window displays.

- Click the **Join Session** link.

- The **Java** window will display indicating the program is loading.

- The **Starting Application** window will display and then a **Security Warning** window.

- Click the **Run** button.

- The **ClassLive Pro** window and then another **Security Warning** window should display as shown in the illustrations on the next page.
Click one of the options in the Security Warning window.

A Connection message will display indicating the progress of the upload (see above).

The program should finish loading and the ClassLive window should display.

For information on the ClassLive window, see the pertinent documents on the ClassLive Web Page.
