Ease of Access

This area is used to set up the Windows program for use by people with special needs.

† Click the Start button.
† In the Search box, input Ease of Access.

† Click the Ease of Access link.
† The Ease of Access Center window will display (see illustration below).

† Try out some of the options available in this window such as Magnifier, On Screen Keyboard, Narrator, and High Contrast.
† Scroll down the page to view additional options for people with special needs.
