Modify Mouse Settings

It is possible to customize the computer mouse in a variety of ways. For instance, you can swap the functions of your mouse buttons, make the mouse pointer more visible, and alter the scroll speed of the mouse wheel.

† Click the Start button.
† In the Search box, input mouse.
† Click the link for Mouse in the left pane of the Start Menu.
† The Mouse Properties dialog box should display (see illustration below).

† Select the option to change from the list below:
  † **Buttons** – Use this tab to change what happens when a button is clicked.
  † **Pointers** – To change the appearance of the pointers that are used for different tasks, use this tab.
  † **Pointer Options** – To change the speed and other options of the mouse pointers, use this tab.
  † **Wheel** – Use this tab to change how the mouse acts when the wheel is used.
  † **Hardware** – To change the properties of the installed mouse, use this tab.
† When all the desired changes have been made, click OK.
