

Control Panel-Modify Mouse Settings

It is possible to customize the computer mouse in a variety of ways. For instance, you can swap the functions of your mouse buttons, make the mouse pointer more visible, and alter the scroll speed of the mouse wheel.

- ✚ Open the **Control Panel**.
- ✚ Click the **Hardware and Sound** link.
- ✚ Under **Devices and Printers**, click the **Mouse** link.
- ✚ The **Mouse Properties** dialog box should display.

- ✚ Select the option to change from the list below:
 - ✦ **Buttons** - Use this tab to change what happens when a button is clicked.
 - ✦ **Pointers** - To change the appearance of the pointers that are used for different tasks, use this tab.
 - ✦ **Pointer Options** - To change the speed and other options of the mouse pointers, use this tab.
 - ✦ **Wheel** - Use this tab to change how the mouse acts when the wheel is used.
 - ✦ **Hardware** - To change the properties of the installed mouse, use this tab.
- ✚ When all the desired changes have been made, click **OK**.
