**FLAG MESSAGES**

A Message Flag is an icon that appears in the message list. The Message Flag contains text that appears in the InfoBar in the Message window. It is possible to select from preset flag text. It is also possible to create a personal message flag. Message Flags can include a deadline. A specific date can be selected or text can be added such as **tomorrow**. When a message has been flagged, the recipient of the message will receive a reminder at the appropriate time. Reminders will only display if the message is stored in the **Inbox**. If it is stored in any other folder, the reminder will not display.
