

Exam-Fill the Blank Questions

With this type of question, it is possible to add up to 10 acceptable responses for the question. The auto-grading feature is case sensitive. Therefore, it is important to be very specific about the answer for each question. When this type of question is auto-graded, all spaces and letters (capital and lower case) are taken into consideration. For this reason, you need to make sure you input all possible correct answers.
