

Feature-Change Name

Once a Feature has been created, the name for the Feature can be changed.

- ✦ Click the **Feature** for which the name is to be changed.
- ✦ The **Feature** window will display.
- ✦ Highlight the text in the **Name** box.
- ✦ Input a new **Name** for the **Feature**.

The screenshot shows a window titled "Calendar" with a close button in the top right corner. Below the title is the text "A Calendar feature on the Main Page page". Underneath, it says "Rename the Feature". There is a text input field containing the word "Calendar" and a button labeled "Use this name". Below this, there is a yellow button labeled "Delete Calendar" and a link that says "Use this feature on its own". At the bottom left, there is a link that says "Close this window".

- ✦ Click the **Use this name** button.
- ✦ Click the **Close this window** button to return to the **Options** page.
