

Get Help

Microsoft Windows Help provides on-screen information about the Windows program. Help is provided within each individual Microsoft program, using the **Tell me what you want to do** option.

- ✦ Click the **Type here to search** box next to the **Start Menu** button.
- ✦ Do one of the following:
 - ✧ Input what you are searching for.
 - ✧ Click the **Microphone Icon** and tell **Cortana** what you need assistance with.

- ✦ A list of responses will appear.

- ✦ Click any of the links to display the information.
- ✦ If a menu is available for the information you are seeking, the window will display.
- ✦ If additional information is available, links to Web sites will appear.
