

## ADD/DELETE/RESTORE SMART NOTEBOOK PAGE

As with other programs, when using Notebook software, it is possible to add and delete pages from a file.

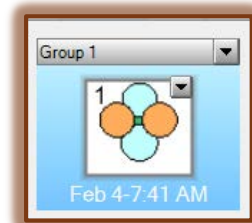

### Add a Page

- ✚ Do one of the following:
  - ✦ Press the **Add Page** button on the toolbar (see illustration below left).
  - ✦ Press **Insert** (see illustration below middle) on the **Menu Bar** and then press **Blank Page**.
  - ✦ Press the **Menu Arrow** (see illustration below right) for the current page on the **Page Sorter** and then select **Insert Blank Page**.
  - ✦ Press **CTRL + M** on the keyboard.

### Delete a Page

- ✚ Select the page that is to be deleted.
- ✚ Do one of the following:
  - ✦ Press the **Delete Page** button on the toolbar (see illustration below left).
  - ✦ Press **Edit** (see illustration below middle) on the **Menu Bar** and then press **Delete Page**.
  - ✦ Press the **Menu Arrow** (see illustration below right) in the **Page Sorter** and then select **Delete Page**.
  - ✦ Press the **Delete** key on the keyboard.

### Restore Deleted Page

- ✚ Do one of the following:
  - ✦ Press **Edit** (see illustration below left) on the **Menu Bar** and select **Undo Delete Page**.
  - ✦ Press the **Undo** button on the toolbar (see illustration below right).
  - ✦ Use the keyboard combination **Ctrl + Z**.
