

## Record SMART Notebook Page

The page recorder option is used to record actions on a SMART Notebook page. It is also possible to record actions on the interactive screen, including actions in programs other than SMART Notebook. A full screen, specified window, or rectangular portion of the screen can be recorded. If a microphone is connected to the computer, audio can be recorded.

### Record a Page

- ✦ Open the **SMART Notebook** window.
- ✦ Click the **Properties** tab on the left side of the window (see illustration at right).
- ✦ Press or click the **Page Recording** tab.
- ✦ The **Page Recording** pane will display (see illustration below).
- ✦ Click the **Start Recording** button.
- ✦ A red circle will appear in the upper left corner of the current page (see illustration below).

- ✦ Perform the actions that are to be recorded.
- ✦ Click the **Properties** button when the recording is finished.
- ✦ Press or click the **Stop Recording** button to stop recording the page.

### Play a Page Recording

- ✦ Display the page that contains the **Page Recording**.
- ✦ Click the **Properties** button on the left side of the window.
- ✦ Press or click the **Play** button to display the recording.

### Remove a Page Recording

- ✦ Display the page that contains the recording.
- ✦ Press or click the **Exit** button on the toolbar.
