

Record Slide Show Narration and Timings

Slide narration and timings can enhance a Web-based or self-running slide show. When creating a video with the presentation, using narrations is a great way to make it less static. Audio narration can be used to archive a meeting so that presenters or absentees can review the presentation later and hear any comments during the presentation. It is also possible to record laser pointer use in the slide show together with narrations in the show.

Record a Narration

- ✦ Click the **Slide Show Tab**.
- ✦ In the **Setup Group**, click the **Record Slide Show** button.

- ✦ Click one of the two options:
 - ⚙ Start Recording from Beginning
 - ⚙ Start Recording from Current Slide
- ✦ The **Record Slide Show** dialog box will display.

- ✦ Select or deselect either of the options.
- ✦ Click the **Start Recording** button.
 - ⚙ To pause the **Narration**, click the **Pause Recording** button on the **Recording Menu Bar**.
 - ⚙ To resume the **Narration**, click **Resume Recording**.

- ✦ To end the slide show recording, right-click the slide and click **End Show**.
- ✦ A **Sound Icon** will appear in the bottom right corner of each slide that has a recording.
- ✦ To see the timing for all the slides, click the **Slide Sorter** icon in the **Views Toolbar**.
- ✦ Click the **Sound Icon** in the each slide.
- ✦ Click the **Playback Tab**.
- ✦ In the **Preview Group**, click **Play**.
