

Search for Programs from Start Menu

With Windows 7, it is possible to search for documents or programs directly from the Start Menu.

- ✦ Click the **Start Button** (see illustration at right).
- ✦ In the **Search** box, input a **word** or **phrase**.
 - ✦ The Search box appears at the **bottom** of the **Start Menu** (see illustration below).
 - ✦ A list of items that match the **Search** will appear in the left frame of the **Start Menu**.

- ✦ Click the item in the left frame that matches the **Search** results.
- ✦ The item will open in the appropriate program.
