

SoftChalk - DidYouKnow Activity

This Activity lets you present an important question to add visual interest to your lesson and present an important concept.

- Click the **Insert** tab on the **Menu Bar**.
- Move the mouse pointer over **Activity**.
- From the list that appears, click **DidYouKnow**.
- The **DidYouKnow Activity** window will display (see illustration below).

- Under **Select Icon**, click the **Icon** list arrow and select an **Icon** for the **Activity**.
- If there isn't an appropriate icon, you can also choose an image by clicking the **File**, **Library**, or **Equation** buttons.
- Input a **Question** for the **Activity**.
- An image can be inserted to the left of the question by selecting, **File**, **Library**, or **Equation** in the **Select Image** section of the window.
- Input an **Answer** for the question.
- Click the **Options Tab** (see illustration on next page) to input the **Instructions** for the **Activity**.
- Click the **Display Inline** check box if the **Activity** is to display directly within the Lesson.
- Click the **Play Feedback Sounds** check box to allow the Activity to play a sound when **Feedback** is selected.
- When all the options have been selected, click the **OK** button to return to the **Main Entry Window**.

 The **Did You Know Activity** will display when it is viewed in the Web Browser as shown in the illustration below.
