# SoftChalk-Create Lesson CD

This feature is only available if you are using a desktop version of SoftChalk. It is a two part process when creating a CD of the lesson. First you need to package the lesson and then create the CD.

PACKAGE LESSON

- Choose **File** from the **Menu Bar**.
- Select **Package Lesson** from the list of options.
- The **Packaging/Student Options** window will display (see illustration below).

- Select the **Executable CD** option under **Package Type**.
- Select either **None** or **SoftChalk Cloud** under **Track Score Using**.
- Click **OK**.
- The window shown in the illustration on the next page will display.
- Select the folder where the **CD Packaged Folder** is to be stored.
- The default location is the directory where the lesson folder is located.
- Once the location has been determined, click **OK** to save the **CD Packaged Folder**.
- The message as shown in the illustration below will appear.
- Click **OK** again to return to the **Main Editing Window**.
- A folder will be completed named, **Lesson_Name_CD-package**.
- The **Files** in this **Folder** will be copied to the **CD**.

CREATE A CD

These instructions are for creating a CD using Windows 7. The instructions will be different for older versions of Windows or for Apple Computers. It is best to use a new CD, not one that already has content.

- Insert the **CD** into the **Disc Drive**.
- The **AutoPlay** window will display.
- Click the **Create a CD** link.
- The **Burn a Disc** window will display.
- Select **With a CD/DVD Player**.
- Click **Next**.
- The **Computer** window will display with the **CD Folder** selected.
- Locate and open the **CD Packaged Folder**.
- Select all the files. This can be done by using the key combination **CTRL+A**.
- Right-click on the files and select **Copy**.
  - You must click in the **blue** area; the list of selected files.
  - **DON'T** paste the CD-package folder.
  - You must paste the contents of the folder.
- Click the link for the **CD**.
- Use the key combination **CTRL+V** to paste the files to the CD.
- The **Files** will appear under **Files Ready to be Written to the Disc**.
- Click the **Burn to Disc** button at the top of the **CD** folder.
- The **Burn to Disc** window will display.
- Click **Next** to **Burn** the files to the **CD**.
  - Once the **Files** have been **Burned** to the **CD**, the CD drive will open.
  - The **Computer** window will close.

IMPORTANT

- ⌨ The Lesson can be used on either a PC or an Apple computer.
- ⌨ PC Users:
  - 🖱 The CD should start automatically, unless **Auto Run** is **turned off**.
  - 🖱 If Auto Run is turned off, you will have to double-click on **ExecutableLessonSetup.exe** to view the lesson.
- ⌨ Apple Users:
  - 🖱 Open the CD.
  - 🖱 Double-click on **ExecutableLessonSetup.exe** to view the lesson.
