

## Start Menu--Windows Search Bar

---

With Windows 10, it is possible to search for documents, programs, or information on Windows features directly from the Windows Search Bar.

### Input Information

- ✦ Click the **Search Bar**.

- ✦ In the **Search** box, input a **word** or **phrase**.
- ✦ A list of items that match the **Search** will appear in the right frame of the **Start Menu**.
- ✦ Click the item in the right frame that matches the **Search** results.
- ✦ The item will open in the appropriate program.

### With Microphone

- ✦ Click the **Microphone** icon in the **Search Bar**.
- ✦ A list of options will appear.
- ✦ If searching for a program, the program will open.
- ✦ When searching for a topic, a list of videos or Web sites will appear.
