

INSERT MAP ELEMENT

Maps can be added to the Weebly site. The location for the Map can be specified.

- ✚ Click the **Build** tab, if necessary.
- ✚ Drag the **Map Element** from the **Basic** group to the page where the **Map** is to be located.
- ✚ A **Map** will display on the page as shown in the illustration below.

- ✚ Click the **Map Element**.
- ✚ The **Map Panel** will display (see illustration below).

- ✚ Input the area for the Map in the **Address** box. This can be a street address or just the city.
- ✚ Move the Zoom slide to specify the **Zoom** range.

- ✚ Click the **Width & Height** arrow to specify these options.
 - 🔒 The options under **Width** are **Tiny**, **Small**, **Medium**, **Large**, and **Auto**.
 - 🔒 The change the **Height**, click the plus (+) and minus (-) buttons.
- ✚ The **Position** options are **Left**, **Center**, and **Right**.
- ✚ Click the plus (+) and minus (-) buttons under **Spacing** to change the **Top Margin** and **Bottom Margin**.
- ✚ Click either of the **Advanced** tabs to specify other options.
