Weebly for Education is a special version of Weebly for teachers and students. Weebly is a powerful, drag and drop Website Editor. Videos, pictures, forms, maps, and text can be added to the site simply by dragging them to the website; no HTML or technical skills are required. For a small fee, it is possible to upgrade to the Pro version. Siena has the Pro version of Weebly for Education so that faculty and staff can create personal, department, division, or organization Web sites. Accounts for students are not created. Students can use the free version of Weebly or pay the small yearly fee to get the Pro version. In order for an account to be created, the employee needs to complete an **online request form** so that the Siena template and Siena domain name can be created for them.

It's Free	✝ It is completely free to create and publish a website using Weebly. ✝ A Pro version of the program is available for a small fee. This is the version that Siena provides for faculty and staff. ✝ It is possible to purchase your own domain to which your Web site can be uploaded.
Hosting Included	✝ Hosting is provided; no need to pay for a hosting provider. However, a user can use their own domain or a domain created by an organization. ✝ There aren't any bandwidth restrictions, storage caps or limits on the number of pages allowed.
100s of Professional Designs	✝ Dozens of professional designs are available to choose from. ✝ More designs are added regularly.
Variety of Content Elements	✝ It is possible to easily add pictures, forms, videos, music and audio, documents, maps, slide shows, photo galleries, slide shows, and other elements to your site. ✝ Pages can be arranged into multiple columns or single columns.
Powerful Blogging Features	✝ An unlimited number of blogs are supported on the site. ✝ Full comment moderation features are available.
No Advertising	✝ Weebly does not place ads on your site.
Publish to Own Domain	✝ If you already have a domain name, Weebly makes it easy to publish to that domain. ✝ Weebly hosts the Website for free. ✝ There is an option for purchasing a domain directly within Weebly. ✝ Weebly will configure a domain that you already own, if desired.
