

Outlook Mac ³⁶⁵ Setup on the iPhone

Download or Update the Microsoft Outlook for the iPhone

Go to the **App store** on your iPhone, and in the search menu type **Outlook**. Download the **Microsoft Outlook app**. If you have the **Outlook app** already installed on your **iPhone**, you can click on the **update button**.

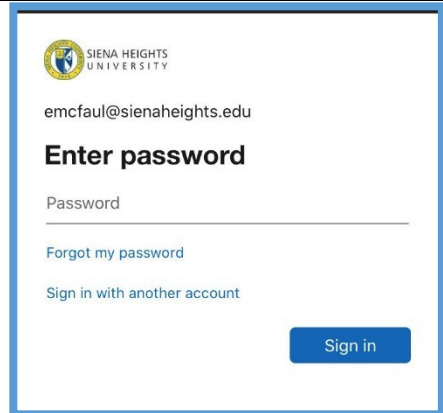

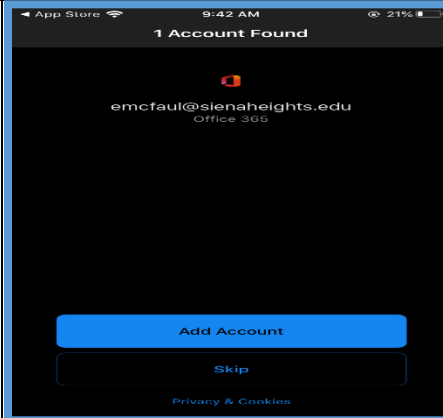

Set up your e-mail account on Microsoft Outlook

Click on the Blue Add Account button. Add another account menu. Type: yourusername@sienaheights.edu Click on the **blue continue button**.

Next, type you're my Siena password.

Next, click on the sign-in the blue button.

Click on the **Maybe later button** to finish the Outlook application setup.

The new Outlook app has a similar interface with the **Focus/other** tabs, which matches your Outlook application app on the **Windows** or **Mac** computer
