

# Downloading VMWare Client for the Mac

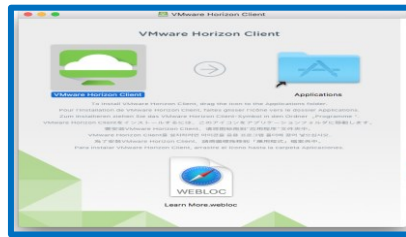

## Windows VMWare Directions

VMWare is Siena's Cloud for the following programs to use for all Mac devices.  
**Programs -Microsoft Office –TI-inspire Gas Student Software--MINITAB 18**

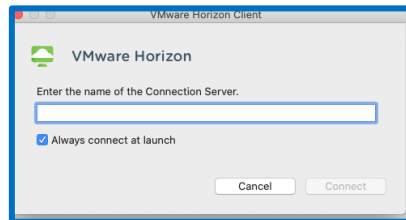

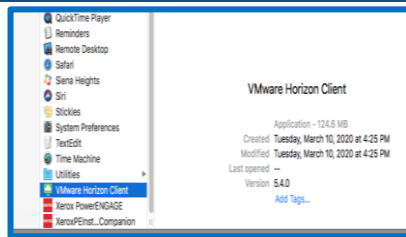

1. Click directly on the [download blue button link](#), and download the [VMWare-Horizon-Client-5.4.0.dmg](#) file, and installed. On Google Chrome the download file will appear on the **left bottom corner** of the web browser.

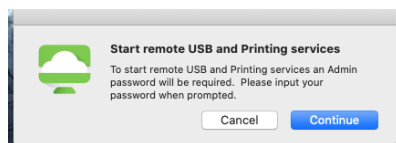

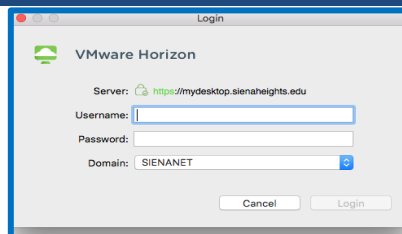

2. Double click on the **download** installer and with your mouse click and drag the **VMware View Client.app** to the blue folder to the right, and the application will be installed on your Mac computer. Double click on the **Blue application folder icon**, in the menu to open the Application folder on your Mac computer.

3. Scroll down to the application folder, and click on the **VMWare Horizon Client**. Enter the name of the Connection Server, which is: **mydesktop.sienaheights.edu**. and then **click on the connect button**.

4. Enter your mysiena username in the **username slot**. and your **recent mysiena password for the password**, and select the drop-down arrow under Domain, to click on **Sienanet**. Select on the **Continue button** for the Start remote USB and Printing services.

5. Select the Standard Desktop to open and access the Windows 10 desktop on your Mac computer device.
6. Your Windows 10 Desktop will and you will have access to all of your **sienanet** files, and applications from campus. Select the **Windows 10** start menu, and you will have access to your applications within their folder.
